

## West Coast Cities Branch (WCCB)

I am honored to serve on this dream team with all these beautiful and brilliant women. I have been a part of the West Coast Cities Branch since 2011. I have served as President; I like to think with President Obama in 2012-2016 and now again with President Biden 2020-Present.

My goal for our Branch is to grow our membership and my objective is to serve our young people by raising funds to support them with scholarships and/or book grants. I desire that we are innovative and willing to think outside of the box to be relevant in our changing times.

May we embrace technology & social media, utilize our skill sets, continue with our personal development, strategically fulfill our initiatives, and make an impact in our community wherever there's a need.
